

39+ hours of instructor-led training!

Windows Server 2003 Administration

• CourseId: 232 • Skill level: 200-500 • Run Time: 39+ hours (241 videos)

Course Description

Learn Windows 2003 with this online training course from experienced consultant and trainer Grant Moyle. In this Windows Server training course, you'll learn the entire gamut from installation all the way to clustering.

Table of Contents

- Chapter 1 - Installing and Upgrading to Windows Server 2003
- Chapter 2 - R2: Windows Server 2003 R2 - What's New, Updating and more
- Chapter 3 - Server Configuration: Server Roles, Services and Network Configuration
- Chapter 4 - Administration: Tools, Utilities and Common Tasks
- Chapter 5 - Configuring and Customizing Windows Server 2003 and Desktop Clients
- Chapter 6 - Managing Hard Drives, External Storage, and Disk Arrays
- Chapter 7 - Security: Users, Network Shares, and Permissions
- Chapter 8 - Policy Management: Local Policies, Group Policies, and User Profiles
- Chapter 9 - Active Directory: Setup, Configuration, Domains and Forests
- Chapter 10 - Performance Tuning, Monitoring, and Management
- Chapter 11 - Disaster Recovery: Backups, Clustering and Troubleshooting
- Chapter 12 - RIS, Remote Desktop and Remote Server Management
- Chapter 13 - Managing Printers on a Windows Server 2003 Network
- Chapter 14 - Miscellaneous Topics, Tips and Tricks
- Chapter 15 - Windows Vista - Deployment, Administration and Demo

Pricing and Multi-User Licensing

LearnItFirst's courses are priced on a per user, per course basis. Volume discounts start for as few as five users. Please visit our website or call us at +1(877) 630-6708 for more information.

Packages and Bundles Available

This course is part of our Windows System Admin Training Package (2003) package. Each package features four courses and a savings of 25% off the retail price ("Buy 3 Get 1 Free").

\$99.95

per user

- Purchasing this course allows you access to view and download the videos for one full year
- Course may be watched as often as necessary during that time

39+ hours of instructor-led training!

Windows Server 2003 Administration

• CourseId: 232 • Skill level: 200-500 • Run Time: 39+ hours (241 videos)

Who Is This Course Designed For?

This Windows 2003 course is perfect for beginning system administrators, those with 1-2 years of experience and even those with 5 or more years experience.

Pre-Requisites

It is recommended that you have at least a small amount of experience managing Windows Servers before you will get the most out of this course.

About the Instructor

Grant A. Moyle is the founder of Confuzer Inc, an Illinois-based Windows, Exchange, and Networking consulting firm specializing in Implementation and Troubleshooting Active Directory and Exchange. He has been a Microsoft Certified System Engineer (MCSE) since the days of NT4 and a Certified Information Security Systems Professional (CISSP) since 2003. He has a Biomedical Engineering and Electrical Engineering background from Johns Hopkins University, and over 10 years experience Teaching, Supporting and Troubleshooting with Microsoft Windows and Exchange. Grant has served both as author and technical editor for several best-selling training courses on Microsoft Windows and Microsoft Exchange. Grant currently lives in the Chicago area with his wife Vivian and their many felines.

Frequently Asked Questions

- *"How do I access the videos?"* You can access the videos 24/7 online via our website
- *"Do I have to have internet access to watch the videos?"* No! Users can download the videos to their hard drive.
- *"How long are the videos?"* The videos are broken into 10 minute task-oriented segments designed to teach you a single task
- *"How many videos are in a course?"* It depends on the topic; courses can have anywhere from 20 - 200 videos!

Windows Server 2003 Administration

• CourseId: 232 • Skill level: 200-500 • Run Time: 39+ hours (241 videos)

Videos in this course:

Chapter 1: Installing and Upgrading to Windows Server 2003

Viewed?

- 1.1 - Pt. 1 - How to Install Windows 2003 on a 64-Bit Machine
- 1.2 - Pt. 2 - Lecture on Why 64 Bit Is a Superior Architecture
- 1.3 - Pt. 3 - Continued Discussion on the Advantages of x64
- 1.4 - Upgrade Windows 2000 to Windows 2003
- 1.5 - Using Windows Help and Support Center
- 1.6 - Using Windows Update to Keep Your Windows 2003 Server Up-to-date
- 1.7 - Install Windows 2003 Standard Edition
- 1.8 - How to Install Service Pack 2 for Windows Server 2003
- 1.9 - Upgrade Windows 2000 - Preparing Windows 2000 AD to Support Windows 2003 Domain Controllers
- 1.10 - Upgrade Windows 2000 - Adding a Windows 2003 Domain Controller
- 1.11 - Upgrade Windows 2000 - Configure DNS on the New Server
- 1.12 - Upgrade Windows 2000 - Removing the Windows 2000 Domain Controllers using DCPromo
- 1.13 - Upgrade Windows 2000 - Final Steps
- 1.14 - Windows 2003 - Lecture on Upgrading 2000 Active Directory to Windows 2003 Active Directory

Chapter 2: R2: Windows Server 2003 R2

- 2.1 - Configuring File, Folder and Volume Quotas Using File Server Resource Manager (FSRM)
- 2.2 - File Screening Management for Microsoft Windows Server 2003 R2
- 2.3 - File Server Resource Manager (FSRM) Storage Reports and Management
- 2.4 - How to Install Windows Server 2003 R2 Standard Edition
- 2.5 - Installing File Server Resource Manager (FSRM) for Windows Server 2003 R2
- 2.6 - Updating an Existing Windows 2003 SP1 Server to Windows 2003 R2
- 2.7 - Whats New in MMC 3.0 for Windows Server 2003 R2
- 2.8 - Add a Windows 2003 R2 Domain Controller to SBS 2003

Windows Server 2003 Administration

• CourseId: 232 • Skill level: 200-500 • Run Time: 39+ hours (241 videos)

Videos in this course:(cont.):

Chapter 3: Server Configuration

Viewed?

- 3.1 - Build Your First Domain Controller
- 3.2 - Building an Additional Domain Controller for the Dingotech Domain
- 3.3 - Configure DNS Server for Static IP Addresses
- 3.4 - DHCP Server: Assign Reserved IP Addresses
- 3.5 - Distributed Link Tracking: Explanation and Use
- 3.6 - DNS Forwarding and Conditional Forwarding
- 3.7 - DNS Internet Forward Lookup Zone
- 3.8 - Examining Processes and Services and SVCHOST.EXE
- 3.9 - Install And Test Simple TCPIP (TCP/IP) Services
- 3.10 - Install IIS and Test with Simple Web Page
- 3.11 - Installing an FTP Server on Your Windows 2003 Server
- 3.12 - Installing IIS (Internet Information Services) - the Web server for Windows
- 3.13 - Setup Your DHCP Server
- 3.14 - Setup Your Windows 2003 Server for DHCP
- 3.15 - Windows Resource Kit Tools
- 3.16 - Windows Services: Explanations and Best Practices
- 3.17 - Service Management: How to Manage Windows 2003 Services
- 3.18 - How to Setup a Windows Certificate Authority
- 3.19 - Configure Your Server Wizard - Setup an Active Directory
- 3.20 - Configure Your Server Wizard - What is It and How to Use It

Chapter 4: Administration: Tools, Utilities and Common Tasks

- 4.1 - Assign a Static IP Address to Your Windows 2003 Server
- 4.2 - Audit File and Folder Usage and Access
- 4.3 - Command Line Disk Defragmentation and Schedule

Windows Server 2003 Administration

• CourseId: 232 • Skill level: 200-500 • Run Time: 39+ hours (241 videos)

Videos in this course:(cont.):

Chapter 4: Administration: Tools, Utilities and Common Tasks

Viewed?

4.4 - Configure Automatic Updates	<input type="checkbox"/>
4.5 - Configuring Environment Variables	<input type="checkbox"/>
4.6 - Differences Between COMMAND and CMD and a Few Command Line Tools	<input type="checkbox"/>
4.7 - Disabled Enhanced Security for Internet Explorer	<input type="checkbox"/>
4.8 - How to Map Network Drives	<input type="checkbox"/>
4.9 - Installing the Admin Pack (adminpak.msi)	<input type="checkbox"/>
4.10 - Installing the Windows Support Tools	<input type="checkbox"/>
4.11 - Microsoft Firewall: Configuration and Setup for Windows 2003	<input type="checkbox"/>
4.12 - Shadow Copies of Shared Folders - Basic	<input type="checkbox"/>
4.13 - Using Network Monitor to Monitor Network Usage and Packets	<input type="checkbox"/>
4.14 - Working with the SHUTDOWN command utility	<input type="checkbox"/>
4.15 - Activating Windows Server 2003: Options, Discussion and Examples	<input type="checkbox"/>
4.16 - Build a Customized Microsoft Management Console (MMC)	<input type="checkbox"/>
4.17 - Helpful Start and Run as Commands (DOS)	<input type="checkbox"/>
4.18 - How to Configure Windows 2003 to Switch From Using Windows Update To Microsoft Update	<input type="checkbox"/>
4.19 - Installing Post Setup Security Updates (PSSU)	<input type="checkbox"/>
4.20 - Power Configuration for Windows Server	<input type="checkbox"/>
4.21 - Prevent Changes to a Customized Microsoft Management Console (MMC)	<input type="checkbox"/>
4.22 - Rename Windows 2003 Server and Determine Computer Name (hostname)	<input type="checkbox"/>
4.23 - Windows 2003 Stand alone Server Time Synchronization	<input type="checkbox"/>
4.24 - Using Windows Server Update Services (WSUS) From a Standalone Workstation	<input type="checkbox"/>
4.25 - Using ADSI Editor to Track Down Attribute Name for Schema Modifications or Scripting	<input type="checkbox"/>
4.26 - Automate the Command Line FTP Utility in Windows 2003	<input type="checkbox"/>
4.27 - Command Line FTP	<input type="checkbox"/>
4.28 - How to Zip and Unzip Files Using Built-In Functions	<input type="checkbox"/>

Windows Server 2003 Administration

• CourseId: 232 • Skill level: 200-500 • Run Time: 39+ hours (241 videos)

Videos in this course:(cont.):

Chapter 4: Administration: Tools, Utilities and Common Tasks

Viewed?

4.29 - Create, Extract, and Password Protect .ZIP Files	<input type="checkbox"/>
4.30 - Event Log Management and Archiving Event Logs	<input type="checkbox"/>
4.31 - How to Approve Security and Critical Updates in WSUS	<input type="checkbox"/>
4.32 - How to Build Computer Groups and Deploy Updates to Computer Groups	<input type="checkbox"/>
4.33 - How to Configure Individual Computers to Obtain Updates Using WSUS	<input type="checkbox"/>
4.34 - How to Configure WSUS for Office 2007 and Exchange Updates	<input type="checkbox"/>
4.35 - How to Perform a Basic Installation of a WSUS 2.0 Server	<input type="checkbox"/>
4.36 - How to Synchronize and Approve WSUS Updates	<input type="checkbox"/>
4.37 - Pt. 1 - Preparing for and Installing SQL Server 2005 Express Edition to Support WSUS	<input type="checkbox"/>
4.38 - Pt. 2 - Installing the WSUS 2.0 Software	<input type="checkbox"/>
4.39 - How to Add a Printer Connection at Logon Using a Login Script	<input type="checkbox"/>
4.40 - How to Audit Login and Logout Events Using Login Scripts	<input type="checkbox"/>
4.41 - How to Map Network Drives at Logon Using Login Scripts	<input type="checkbox"/>
4.42 - How to Permanently Change Registry Settings With Login Scripts	<input type="checkbox"/>
4.43 - How to Relocate All Login Scripts to a Centralized Location	<input type="checkbox"/>
4.44 - Part 1 - Windows Server Update Services 3.0 Installation	<input type="checkbox"/>
4.45 - Part 2 - WSUS 3.0 Configuration Wizard	<input type="checkbox"/>
4.46 - Part 3 - WSUS 3.0 Infrastructure Overview	<input type="checkbox"/>
4.47 - Part 4 - Approving Updates and Allowing Updates to Download	<input type="checkbox"/>
4.48 - Part 5 - Configuring Individual Servers and Workstations to Obtain Updates from WSUS 3.0	<input type="checkbox"/>
4.49 - Part 6 - Use Group Policy to Configure WSUS on Workstations and Servers	<input type="checkbox"/>
4.50 - Part 7 - Approve New Product and Classification for Deployment	<input type="checkbox"/>
4.51 - Part 8 - Configure Email Notifications About WSUS Status	<input type="checkbox"/>
4.52 - Part 9 - Configure Automatic Approvals	<input type="checkbox"/>
4.53 - Part 10 - Request SSL Certificate and Configure WSUS to Use SSL	<input type="checkbox"/>

Windows Server 2003 Administration

• CourseId: 232 • Skill level: 200-500 • Run Time: 39+ hours (241 videos)

Videos in this course:(cont.):

Chapter 5: Configuring and Customizing Windows Server 2003

Viewed?

- 5.1 - Customize Interfaces for Files and Folders
- 5.2 - Customize Login Wallpaper
- 5.3 - Customize the Start Menu and Desktop
- 5.4 - How to Remove a Computer (Windows XP) from the Domain
- 5.5 - Join Windows XP to the Domain
- 5.6 - How to Implement a Software-Based RAID 5 Array
- 5.7 - Using and Enabling the Themes Service in Windows 2003
- 5.8 - Creating Screen Captures of the Desktop and Individual Windows (Screenshots)
- 5.9 - Customizing and Tuning The Mouse for a Server
- 5.10 - How to Customize and Tune the Keyboard
- 5.11 - How to Customize the Start Menu and Task Bar
- 5.12 - How to Install Office 2003 and Update to Office 2003 Service Pack 2
- 5.13 - Lecture on How File Deletion Works on Windows 2003
- 5.14 - How to Join a Computer to the Domain
- 5.15 - How to Join a Computer to the Domain with Basic Troubleshooting

Chapter 6: Managing Hard Drives, External Storage, and Disk Arrays

- 6.1 - Add New Disks to Windows 2003
- 6.2 - Change Drive Letters and How to Mount to Existing Folder
- 6.3 - Install and Format a New Hard Disk
- 6.4 - Install New Hard Drive and Assign Drive Letter
- 6.5 - Installing a New Hard Disk Drive
- 6.6 - Setup OS Disk Mirror
- 6.7 - Using NTBackup to Backup Files and System State
- 6.8 - Using Removable USB and Firewire Disks

Windows Server 2003 Administration

• CourseId: 232 • Skill level: 200-500 • Run Time: 39+ hours (241 videos)

Videos in this course:(cont.):

Chapter 6: Managing Hard Drives, External Storage, and Disk Arrays

Viewed?

- 6.9 - Pt. 1 - Installing, Setup and Basic Configuration of Distributed File System (DFS) Replication
- 6.10 - Pt. 2 - Managing DFS Replication
- 6.11 - Pt. 3 - More on Managing DFS Replication

Chapter 7: Security: Users, Network Shares, and Permissions

- 7.1 - Create a User Share with Security
- 7.2 - How to Take Ownership of a Folder and File
- 7.3 - Password Management
- 7.4 - Creating OU, User and User Group Using VBScript
- 7.5 - Part 1 - An Explanation and Introduction to Windows Profiles
- 7.6 - Part 2 - How to Setup a Local Default Profile
- 7.7 - Part 3 - Creating and Working With Default Domain Profiles
- 7.8 - Part 4 - Using Roaming Profiles in Windows
- 7.9 - Part 5 - How to Clean Up User Profiles From Time to Time

Chapter 8: Policy Management: Local Policies and Group Policies

- 8.1 - Customize Internet Explorer and the Desktop Using Group Policy
- 8.2 - Customize Internet Explorer and the Desktop Using Local Policy
- 8.3 - Deploy Software Using Group Policy
- 8.4 - Group Policy Basics
- 8.5 - Local Security Policy Management
- 8.6 - Overview of the Default Domain Controller Policies on Windows Server 2003
- 8.7 - Overview of the Default Domain Security Policy in Windows 2003
- 8.8 - Managing Policies with the Group Policy Management Console (GPMC)

Windows Server 2003 Administration

• CourseId: 232 • Skill level: 200-500 • Run Time: 39+ hours (241 videos)

Videos in this course:(cont.):

Chapter 9: Active Directory: Setup, Configuration, Domains and Forests

Viewed?

9.1 - Active Directory Management: Adding a New User	<input type="checkbox"/>
9.2 - Active Directory Management: Basic Group Management (Mixed Mode)	<input type="checkbox"/>
9.3 - Create a User Account in the Active Directory	<input type="checkbox"/>
9.4 - How to Raise Domain and Forest Functional Levels	<input type="checkbox"/>
9.5 - Raise Domain Functional Level	<input type="checkbox"/>
9.6 - Remove the Last Domain Controller from the Domain (via DCPromo)	<input type="checkbox"/>
9.7 - User Principal Names: How to Use UPNs to Logon to Your Active Directory	<input type="checkbox"/>
9.8 - Defragment the Active Directory Database	<input type="checkbox"/>
9.9 - Force Removal of a Domain Controller	<input type="checkbox"/>
9.10 - How to Move the Active Directory Database Files to a Different Path (New Location)	<input type="checkbox"/>
9.11 - How to Perform Metadata Cleanup When a Domain Controller Is Removed Not Using DCPromo	<input type="checkbox"/>
9.12 - Resetting the Directory Service Restore Mode (DSRM) Administrator Password with NTDSUtil	<input type="checkbox"/>
9.13 - Time Synchronization Using Active Directory	<input type="checkbox"/>
9.14 - FSMO Role Transfer with NTDSUtil.exe	<input type="checkbox"/>
9.15 - FSMO Role Seizure with NTDSUtil.exe	<input type="checkbox"/>
9.16 - How to Remove a Broken Domain Controller with NTDSUtil.exe	<input type="checkbox"/>
9.17 - Rename a Windows Server 2003 Domain Controller	<input type="checkbox"/>
9.18 - Active Directory Password Management: Creating Complex Password Policies	<input type="checkbox"/>
9.19 - Create a Template User and Modify Schema to Control Copied Attributes	<input type="checkbox"/>
9.20 - Configure Primary Domain Controller (PDC) Emulator as a Reliable Time Source	<input type="checkbox"/>
9.21 - Part 1 - Adding Additional Domain Controllers to Your Domain	<input type="checkbox"/>
9.22 - Part 2 - Adding Additional Domain Controllers to Your Domain	<input type="checkbox"/>
9.23 - Pt. 1 - Discussion of Using FSMO Roles and an Overview of the Five Domain FSMO Roles	<input type="checkbox"/>
9.24 - Pt. 2 - Using the Forest FSMO Roles: The Schema FSMO and the Domain Naming Master FSMO	<input type="checkbox"/>
9.25 - Pt. 1 - Discussion on Private Namespace Domains and Building the LearnItFirst Local Domain	<input type="checkbox"/>

Windows Server 2003 Administration

• CourseId: 232 • Skill level: 200-500 • Run Time: 39+ hours (241 videos)

Videos in this course:(cont.):

Chapter 9: Active Directory: Setup, Configuration, Domains and Forests

Viewed?

9.26 - Pt. 2 - Building A Second Domain Controller For The LearnItFirst Local Domain

9.27 - Pt. 3 - Installing and Configuring Additional Domain Controllers

9.28 - Pt. 4 - Configuring Active Directory Sites

9.29 - Pt. 5 - Setting and Raising Domain and Forest Functional Levels

Chapter 10: Performance Tuning, Monitoring, and Management

10.1 - Configuring Your Windows Server 2003 for Performance: Server Properties

10.2 - Defragment Windows Paging File (a.k.a. the Page File or Swap File)

10.3 - Disk Defragmentation: Understanding Defragmentation and Defragging using the Default Tools

10.4 - Mapping Processes to Port Usage

10.5 - Using Disk Quotas to Document Disk Usage

10.6 - How to Perform Network Diagnostics and Create Customized Reports Using Help and Support Center

10.7 - Advanced Troubleshooting of a DTC Error

10.8 - Enable and Test Account Lockout in Active Directory

10.9 - Auditing Registry Access in the Event Log

10.10 - Auditing Printer Usage in the Event Log

10.11 - Auditing User Logon to the Active Directory

Chapter 11: Disaster Recovery

11.1 - How to Restore System State from NTBackup

11.2 - Installing the Recovery Console Locally

11.3 - The Dreaded Blue Screen of Death: Every Administrators Nightmare!

11.4 - Using NEWSID to Change SID and Rename a Machine

11.5 - Using Recovery Console to Enable & Disable Services

11.6 - Using Recovery Console to Repair Disks

Windows Server 2003 Administration

• CourseId: 232 • Skill level: 200-500 • Run Time: 39+ hours (241 videos)

Videos in this course:(cont.):

Chapter 11: Disaster Recovery

11.7 - Using a System Restore Point With the Recovery Console

11.8 - Adding a New Disk to Your Windows 2003 Cluster

11.9 - Pt. 1 - Getting All Nodes Ready to Setup Your Windows 2003 Cluster

11.10 - Pt. 2 - Setting Up the Network Requirements for Your Windows Cluster

11.11 - Pt. 3 - Configuring the Shared Disks and Quorum

11.12 - Pt. 4 - Setting Up the Cluster for the First Time

11.13 - Pt. 5 - Adding a Second Node to the Cluster

11.14 - Pt. 6 - Creating a Highly Available File Share

Viewed?

Chapter 12: RIS, Remote Desktop and Remote Server Management

12.1 - Remote Desktop: Tuning and Performance

12.2 - Using Remote Assistance

12.3 - Using Remote Desktop

12.4 - Configure Windows 2000 Terminal Services for Remote Administration and More

12.5 - Part 1 of 2 - RIS Setup for Windows XP Deployment

12.6 - Part 2 of 2 - RIS Setup for Windows XP Deployment

Chapter 13: Managing Printers on a Windows Server 2003 Network

13.1 - Create and Share a Local Printer

13.2 - Examining Printer Properties

13.3 - Printer Sharing: Create a TCP/IP Printer Share

13.4 - Printers: Configuring Printer Hardware Options in Windows 2003

13.5 - Setting Printer Defaults for Your Network Printers

Windows Server 2003 Administration

• CourseId: 232 • Skill level: 200-500 • Run Time: 39+ hours (241 videos)

Videos in this course:(cont.):

Chapter 14: Miscellaneous Topics, Tips and Tricks

Viewed?

14.1 - Configure for use as a Desktop or Laptop instead of a Server	<input type="checkbox"/>
14.2 - Customizing Windows Explorer with Command-line Switches	<input type="checkbox"/>
14.3 - Display Information about Non-present (Hidden) Devices	<input type="checkbox"/>
14.4 - How to Auto-Login the Administrator Account	<input type="checkbox"/>
14.5 - How to Change a Domain Name: Demoting and Promoting Domain Controller via DCPromo	<input type="checkbox"/>
14.6 - Using SyncToy to Synchronize Directories/Machines	<input type="checkbox"/>
14.7 - How to Register a New Domain Name and Configure Internet DNS	<input type="checkbox"/>
14.8 - Forensics: How to Export Internet Explorer History to a File for Analysis	<input type="checkbox"/>
14.9 - Control the Time/Clock Placement on the Desktop	<input type="checkbox"/>
14.10 - Lecture on Screen Resolution	<input type="checkbox"/>
14.11 - TaskList, TaskKill, and Shutdown.exe - Utilities for Admins	<input type="checkbox"/>
14.12 - How to Boot Windows Into Safe Mode From the Command Prompt	<input type="checkbox"/>
14.13 - An Explanation of the Windows Boot Menu (Hit F8 During Startup)	<input type="checkbox"/>
14.14 - How to Tweak the BOOT.INI File to Simulate One Less Processor and Less RAM	<input type="checkbox"/>
14.15 - Create a Shortcut to a Blank Screen or a Screensaver	<input type="checkbox"/>
14.16 - How to Enable Remote Desktop By Using the Registry	<input type="checkbox"/>
14.17 - What To Do If Help and Support Center Are Missing After Service Pack 2 Installation	<input type="checkbox"/>
14.18 - Pt. 1 - Windows PowerShell - A Quick Introduction to PowerShell and How to Install	<input type="checkbox"/>
14.19 - Pt 2. - Writing Your First PowerShell Script	<input type="checkbox"/>
14.20 - Pt. 3 - How to Work With files and Folders With Windows PowerShell	<input type="checkbox"/>
14.21 - Pt. 4 - Understanding How Aliases Work in PowerShell (for both Windows and *NIX)	<input type="checkbox"/>
14.22 - Pt. 5 - How Pipelines Work in Windows PowerShell	<input type="checkbox"/>
14.23 - Part 1 - How to Get a Commercial SSL Certificate From a Certificate Authority	<input type="checkbox"/>
14.24 - Part 2 - How to Get your Newly Generated SSL Certificate Issued By a Certificate Authority	<input type="checkbox"/>
14.25 - Part 3 - How to Apply Your New Certificate in IIS for Secure https:// Access	<input type="checkbox"/>

39+ hours of instructor-led training!

About LearnItFirst.com: LearnItFirst is a leader in online video training for the Microsoft community. With nearly 400 hours of classroom-quality video training online, LearnItFirst has one of the largest online training video libraries on the web today. LearnItFirst's online courses are a cross between a "live" instructor-led class and a "how to" book. Customers get the affordability and portability of a book and the "Watch and Learn" of having a live instructor. All courses feature full-screen resolution videos with high quality audio to ensure the very best possible training experience. LearnItFirst.com LLC was founded in 2004 and is based in Dallas, Texas.
