

16+ hours of instructor-led training!

Windows Server 2008 Administration

• CourseId: 233 • Skill level: 200-500 • Run Time: 16+ hours (76videos)

Course Description

With our Windows Server 2008 online training course, you'll learn everything from installation to advanced disaster recovery. Let Grant Moyle, master trainer, teach you how to manage your Windows 2008 network in this online course.

Table of Contents

- Chapter 1 - Windows Server 2008 Overview
- Chapter 2 - Windows Server 2008 Management
- Chapter 3 - Networking -DHCP, DNS and Time Synchronization
- Chapter 4 - Sharing and Security, Disk Setup/Configuration, RAID, Server Roles, DFS
- Chapter 5 - Printing
- Chapter 6 - Windows Server Installation and Upgrade
- Chapter 7 - Windows Server Core Installation
- Chapter 8 - Active Directory Migration in Windows Server 2008
- Chapter 9 - Internet Information Server 7.0

Pricing and Multi-User Licensing

LearntFirst's courses are priced on a per user, per course basis. Volume discounts start for as few as five users. Please visit our website or call us at +1(877) 630-6708 for more information.

Packages and Bundles Available

This course is part of our Windows System Admin Training Package (2008) package. Each package features four courses and a savings of 25% off the retail price ("Buy 3 Get 1 Free").

\$99.95

per user

- Purchasing this course allows you access to view and download the videos for one full year
- Course may be watched as often as necessary during that time

16+ hours of instructor-led training!

Windows Server 2008 Administration

• CourseId: 233 • Skill level: 200-500 • Run Time: 16+ hours (76videos)

Who Is This Course Designed For?

This Windows 2008 course is perfect for beginning system administrators, those with 1-2 years of experience and even those with 5 or more years experience.

Pre-Requisites

It is recommended that you have at least a small amount of experience managing Windows Servers before you will get the most out of this course. .

About the Instructor

Grant A. Moyle is the founder of Confuzer Inc, an Illinois-based Windows, Exchange, and Networking consulting firm specializing in Implementation and Troubleshooting Active Directory and Exchange. He has been a Microsoft Certified System Engineer (MCSE) since the days of NT4 and a Certified Information Security Systems Professional (CISSP) since 2003. He has a Biomedical Engineering and Electrical Engineering background from Johns Hopkins University, and over 10 years experience Teaching, Supporting and Troubleshooting with Microsoft Windows and Exchange. Grant has served both as author and technical editor for several best-selling training courses on Microsoft Windows and Microsoft Exchange. Grant currently lives in the Chicago area with his wife Vivian and their many felines.

Frequently Asked Questions

- *"How do I access the videos?"* You can access the videos 24/7 online via our website
- *"Do I have to have internet access to watch the videos?"* No! Users can download the videos to their hard drive.
- *"How long are the videos?"* The videos are broken into 10 minute task-oriented segments designed to teach you a single task
- *"How many videos are in a course?"* It depends on the topic; courses can have anywhere from 20 - 200 videos!

Windows Server 2008 Administration

• CourseId: 233 • Skill level: 200-500 • Run Time: 16+ hours (76videos)

Videos in this course:

Chapter 1: Windows Server 2008 Overview

	Viewed?
1.1 - Completing the Initial Configuration Wizard	<input type="checkbox"/>
1.2 - Windows Server Manager: Role Management Overview, Part A	<input type="checkbox"/>
1.3 - Windows Server Manager: Role Management Overview, Part B	<input type="checkbox"/>
1.4 - Windows Server Manager: Features Management Overview	<input type="checkbox"/>
1.5 - Windows Server Manager: Diagnostic Overview	<input type="checkbox"/>
1.6 - Windows Server Manager: Configuration Overview, Part A	<input type="checkbox"/>
1.7 - Windows Server Manager: Configuration Overview, Part B	<input type="checkbox"/>
1.8 - Windows Server Manager: Disk Management Overview	<input type="checkbox"/>
1.9 - Desktop and Start Menu Overview	<input type="checkbox"/>
1.10 - Controlling the Local Password Requirements on a Stand-Alone Windows 2008 Server	<input type="checkbox"/>

Chapter 2: Windows Server 2008 Management

2.1 - Building the First Domain Controller for an Active Directory, Part A	<input type="checkbox"/>
2.2 - Building the First Domain Controller for an Active Directory, Part B	<input type="checkbox"/>
2.3 - Using Active Directory Users and Computers, Part A	<input type="checkbox"/>
2.4 - Using Active Directory Users and Computers, Part B	<input type="checkbox"/>
2.5 - Join a Computer to the Domain	<input type="checkbox"/>
2.6 - Creating and Managing Active Directory Group Policies	<input type="checkbox"/>
2.7 - Delegating Permissions in the Active Directory	<input type="checkbox"/>
2.8 - Using Group Policies for Computer Management and Control, Part A	<input type="checkbox"/>
2.9 - Using Group Policies for Computer Management and Control, Part B	<input type="checkbox"/>
2.10 - Advanced Features of Active Directory Users and Computers	<input type="checkbox"/>
2.11 - Creating an Additional Domain Controller for an Active Directory Domain	<input type="checkbox"/>
2.12 - Introduction to How Active Directory Works with More Than One Domain Controller	<input type="checkbox"/>
2.13 - How to Rename a Domain Controller	<input type="checkbox"/>

Windows Server 2008 Administration

• CourseId: 233 • Skill level: 200-500 • Run Time: 16+ hours (76videos)

Videos in this course:(cont.):

Chapter 3: Networking -DHCP, DNS and Time Synchronization

Viewed?

- 3.1 - How to Install a DHCP Server on a Domain Controller
- 3.2 - How to Configure and Manage DHCP Scopes
- 3.3 - How to Configure and Manage the DHCP Server options
- 3.4 - How to Install a 2nd DHCP Server to Provide Redundancy/High Availability for the Network Segment
- 3.5 - How Windows Time Synchronization Works and How to Control Time
- 3.6 - Fundamentals of Windows Server 2008 DNS
- 3.7 - How to Manage Windows Server 2008 DNS Servers

Chapter 4: Sharing and Security, Disk Setup/Configuration and more

- 4.1 - How to Share Folders (and files) on a Windows 2008 Server
- 4.2 - How File and Folder Permissions work in conjunction with Shared Permissions, Part A
- 4.3 - How File and Folder Permissions work in conjunction with Shared Permissions, Part B
- 4.4 - How to Add a New Disk to Windows, Including Initialization and Formatting
- 4.5 - How to Combine 3 Disks into a Software-based RAID5 Disk for Data Protection/Security
- 4.6 - Configuring a Distributed File System Namespace to Unify Shared Folders into One Network Path
- 4.7 - How to Configure File Replication between Two Servers for Redundancy, Part A
- 4.8 - How to Configure File Replication between Two Servers for Redundancy, Part B

Chapter 5: Printing

- 5.1 - Install a Local Parallel Printer and Discussion of Various Printer Configuration Options
- 5.2 - Install a Network Printer, Discussion of Print Drivers and Sharing of 32-bit and 64-bit Drivers, Part A
- 5.3 - Install a Network Printer, Discussion of Print Drivers and Sharing of 32-bit and 64-bit Drivers, Part B
- 5.4 - Addition of the Print Server Role and Using the Print Management Console to Manage Printers
- 5.5 - How to Deploy a Printer with a Login Script
- 5.6 - Deploy Printers to Workstations without Login Scripts - Do it With Group Policy!

Windows Server 2008 Administration

• CourseId: 233 • Skill level: 200-500 • Run Time: 16+ hours (76videos)

Videos in this course:(cont.):

Chapter 6: Windows Server Installation and Upgrade

Viewed?

- 6.1 - Performing a Clean Installation of Windows Server 2008 on New Hardware
- 6.2 - In-Place Upgrade from Windows 2003 to Windows 2008, Part A
- 6.3 - In-Place Upgrade from Windows 2003 to Windows 2008, Part B
- 6.4 - Installation and Configuration of Windows Deployment Services, Part A
- 6.5 - Installation and Configuration of Windows Deployment Services, Part B
- 6.6 - Testing Windows Deployment Services
- 6.7 - Customizing and Uploading a Windows Deployment Server Image back to the WDS Server
- 6.8 - How to Extend the Windows Grace Period/Evaluation Period/Activation Period for an Extra 60-days

Chapter 7: Windows Server Core Installation

- 7.1 - Installation and Management of a Windows Server 2008 Core Installation, Part A
- 7.2 - Installation and Management of a Windows Server 2008 Core Installation, Part B
- 7.3 - Windows Server 2008 Core Installation Basic Management
- 7.4 - Windows Server 2008 Core - Enabling Remote Desktop and WinRM/WinRS
- 7.5 - How to Install Windows Roles onto a Server Core
- 7.6 - How to Install Internet Information Server 7 (IIS7) onto a Windows Server 2008 Core
- 7.7 - Adjusting Video Resolution on a Windows Server 2008 Core Installation
- 7.8 - Adding the Active Directory Domain Controller Role to a Windows Server 2008 Core Installation
- 7.9 - How Remove a Domain Controller running on a Core Server from the Active Directory

Chapter 8: Active Directory Migration in Windows Server 2008

- 8.1 - Active Directory Migration Discussion and Demonstration, Part A
- 8.2 - Active Directory Migration Discussion and Demonstration, Part B
- 8.3 - Active Directory Migration Discussion and Demonstration, Part C
- 8.4 - Active Directory Migration Discussion and Demonstration, Part D

16+ hours of instructor-led training!

Windows Server 2008 Administration

• CourseId: 233 • Skill level: 200-500 • Run Time: 16+ hours (76videos)

Videos in this course:(cont.):
